*****SPECIAL NOTICE*****

The Customer/Manufacturer should assess himself, by preliminary testing and evaluation, that the dye fastness of the thread is suitable for his intended uses. GUNOLD USA threads are manufactured and quality controlled to the very highest standards possible. However, since we have not tested every washing, dry cleaning, pressing or weather condition (when used on an article of items that will remain exposed to the elements), and since the value of the thread is so disproportionate to the value of the material into which it is sewn, we are not and cannot be held responsible for any damage that could occur.
